### **DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this section can be found in the prior office action.
2. The prior office actions are incorporated herein by reference. In particular, the observations with respect to claim language, and response to previously presented arguments.
3. Claims 1-27 are pending.

### ***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
5. Applicant's arguments, former examiner's actions, arguments have been carefully considered. Based on the decision of the Panel from Pre-Appeal Brief Review, the finality of the previous office action have been withdrawn.
6. Examiner agrees with the core of applicant's arguments presented to the Panel, however after the review of the arguments in view of applicant's specification a new ground of rejection is rendered in order to expedite the examination process. Examiner also has issued a suggestion in order to help applicant to overcome the rejection rendered, and in harmony with fig.6 and summary of the invention of the specification.

***Claim Rejections - 35 USC § 112***

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

8. **Claims 1-27** are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: Step 601 of fig.6 in the claim language.

**Examiner suggests the inclusion of the step 601 using the limitation “security layer in the kernel space” into the body and not in the preamble of the independent claims 1, 10 and 19 in order to expedite the examination process.**

9. Such step is core of applicant's invention and it is the inventive steps that applicant claims in the specification in order to overcome the deficiency of the prior art in that regards.

***Allowable Subject Matter***

10. **Claims 1-27** would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action in a manner suggested by examiner or similar action without broadening the claim language and deleting limitations not related to the above suggestion, that necessitate further search and possible new rejections.
